MANY FRIENDS AT FUNERAL OF LATE MRS. MUNCASTER

The funeral of Mrs. Muncaster wife of Capt. Rev. W. H. Muncaster of Calgary, was held from Foster's undertaking parlors on Friday afternoon, with a large attendance of friends of the family. The pallbearers were E. L. Shouldice, Art. Wakelyn, A. Aire and John Scott, and the services were conducted by the Rev. H. W. Avigon, M.A., B.D., of Central United church, assisted by Rev. Rex Brown, B.A., of North Hill United church.

Rev. William Shearer, D.D., assistant pastor of Knox United church, delivered a beautiful address, referring to the useful life of Mrs. Muncaster as one who had assisted to pioneer the west; he alluded to her intellectual culture, her unselfish disposition, her loyalty to her adopted country and her devotion to her family. Dr. Shearer added that he and his late wife had counted it a privilege to know the deceased lady, and expressed the hope that the audience would profit by her noble life and gracious example.

Favorite hymns of Mrs. Muncaster were sung in the course of the service, these being "Now the Laborer's Task is Over" and "Peace, Perfect Peace." Rev. W. E. McNeven, B.D., presided at the organ. The floral tributes were numerous and beautiful, some being sent from Nobleford and Blairmore, where the late Mrs. Muncaster had assisted her husband in pastoral charges.

Later the remains were laid to rest in the Burnside cemetery, Rev. W. M. Grant, M.A., of Hillhurst, president of the Alberta Conference of the United Church pronouncing the benediction—Calgary, Alberta.

HAMMOND—ARLENDSON

A very pretty wedding was solemnized at the home of Mrs. A. H. Arlenson, Calgary, on May 10, when her second daughter, Bertha Olive, became the bride of Mr. Harold Foster Hammond, youngest son of Mr. R. Hammond, Winnipeg, Man. The Rev. Rex Brown officiated.

The wedding march was rendered by Mrs. L. Altmatt, of Blairmore. The bride was attended by her sister, Miss Winnifred Arlenson, while Mr. Wm. Munton, of Blairmore, supported the groom.

The bride was charmingly gowned in shell pink georgette trimmed with rhinestones and a rainbow effect fringe. She carried a bouquet of pink roses. The bridesmaid wore rose georgette and carried a bouquet of sweet peas.

After the ceremony the party proceeded to the Tea Kettle Inn where the wedding breakfast was served, after which they returned to the home of the bride's mother where the evening was spent in music and dancing.

The guests included: Mrs. A. H. Arlenson, Mr. and Mrs. L. B. Holmes, Mr. and Mrs. B. A. Holmes, Mr. and Mrs. C. W. Stanley, Junior Stanley, Mrs. L. Altmatt, Miss Winnifred Arlenson, Miss Beatrice Nicholson, Mr. Wm. Munton, Mr. F. K. Russell, Mr. F. Ballsford, Mr. Albert Arlenson, Mr. Clifford Arlenson, Mr. Wayne Stauffer and Mr. K. McCoy.

Mr. and Mrs. Hammond will make their home in Edmonton, Alberta.—Calgary Herald.

Troublesome Surplus

Mr. Spendix: "Any instalments due today?"

Mrs. Spendix: "No, dear, I think not."

Mr. S.: "Any payments due on the house, the radio, the furniture, the rugs or the books?"

Mrs. S.: "No."

Mr. S.: "Then I have \$10 we don't need. What do you say if we buy a new car?"

NEW RED TRAIL

BUS ON THE JOB

The new Red twelve-passenger bus was introduced to the Pass service by Mr. Blinston, of the Red Trail Transportation, on Monday. The new bus is one of the most up-to-date on the market and is attracting considerable interest through this district.

ANOTHER ACCIDENT

The Calgary Albertan announces that Miss "Pat" McGregor, while playing with Miss A. Stewart at the Bonness Golf course on Wednesday, made a hole in one.

PAYMENT MADE FOR LACOMBE & NORTHWESTERN RAILWAY

A cheque for \$1,501,582.59 was turned over to Hon. R. G. Reid, provincial treasurer, on Thursday of last week, as payment by the Canadian Pacific Railway of the purchase price of the Lacombe & Northwestern Railway which has been operated by the C.P.R. since the transfer of ownership some few months ago. The sum involved represents the purchase price of \$1,500,000 and accrued interest since the date of the agreement.

STOP! PREVENT ACCIDENTS!

"Stop sign" legislation passed at the recent session of the Saskatchewan legislature, went into effect May 1st.

Outstanding features of the new legislation are: (1) Every driver of a motor vehicle approaching a level crossing shall come to a full stop then any sort of signal indicates the approach of a train, and shall not proceed until some other signal indicates that it is safe to do so. (2) Every driver of a motor vehicle shall come to a full stop at any level crossing where a sign indicates danger, or at any other point where a "stop sign" has been erected. This provision applies whether or not a train can be heard or seen approaching the crossing.

The significance attached to the word "stop" on signs erected on a highway by these requirements necessitates some restriction upon its use. The new legislation, therefore, prohibits the use of the word "stop" on any sign erected on the highway, the word being reserved for the exclusive official use of the department of highways. The prohibition extends also to the erection of a sign in any way resembling the official "stop sign" issued by the department. Persons violating this provision are liable to fines, on summary conviction, of from \$10 to \$100.

The legislature has been given the stamp of general approval as a measure devised in the interests of public safety, and for the elimination of accidents at level crossings, which annually are taking a heavy toll of human life.

The above sounds like good legislation and might well be adopted throughout Canada, thus standardizing the "stop sign" from coast to coast.—Ex.

NEW PRESIDENT OF UNIVERSITY TO BE SELECTED

Hon. Perren Baker, minister of education, will leave shortly for Eastern Canada and the United States on a tour of investigation which will have as its object the location of likely appointees for the position of president of the University of Alberta. Dr. H. M. Torr, who has occupied this post since the organization of the university in 1908, is leaving at the end of June to accept the chairmanship of the National Council of Scientific Research.

The new telephone building is fast nearing completion and is looking quite neat.

WORLD HAPPENINGS BRIEFLY TOLD

During 1927 the salmon catch in British Columbia totalled 1,360,264 cases and fell short of the 1926 production by 704,556 cases.

The Prince of Wales has decided to use a fast army two seater plane to fulfill his engagements around the country.

Fifteen Royal Air Force pilots have been killed in flying accidents since the first of the year. It was announced in the British House of Commons.

Chain broadcasting from the Atlantic to the Pacific will be undertaken by the Canadian National Railways radio stations next fall.

William Burns, 86, who came from Toronto in 1892 to organize British Columbia's schools at the request of Premier John Robson, is dead after a lingering illness.

Col. Charles A. Lindbergh has flown about 200,000 miles in his career as pilot, according to a report filed with the aeronautics branch of the commerce department.

With a view to promoting night flying in the Dominion the civil aviation branch of the department of national defence is planning a lighted airway along the shores of the St. Lawrence for 35 miles.

Captain Malcolm McPhee, veteran master of the steamer Kewatin, has the double honor of having opened two ports this year, the Sault and the head of the lakes, securing two silk hats for his feat.

Workmen digging at Old Fort Erie, Ont., uncovered the skeletons of three British soldiers and an Indian who fell during the American siege of the fort in the war of 1812. Fragments of a shell and the positions of the skeletons indicated that the four had been buried by the missile that killed them.

Co-Operative Wool Marketing

During Ten Years of Operation More Than Thirty-Six Million Pounds Were Handled

More than 36,000,000 pounds of wool have been handled by the Canadian Co-operative Wool Growers Ltd., Toronto, during the ten years that it has been operating. This association is a sales agency serving the provincial and local associations in the provinces of Canada from Nova Scotia to British Columbia. Wool of the 1927 clip was assembled by 16 local associations and delivered to the larger organizations for marketing. The 1927 receipts consisted of 5,636,315 pounds of wool and 11,939 pounds of pelts. Of this amount 41 per cent came from Alberta, and 19 per cent from Ontario. Manitoba and Saskatchewan together furnished 18 per cent of the total quantity.

In addition to marketing wool the association has handled scapes, twine, stockmen's supplies, and manufactured wools. Total sales of these side lines for 1927 amounted to \$77,673.

Lawyer: Don't you think you are straining a point in your explanation?

Witness (a cock): Maybe I am, but you often have to strain things to make them clear.

Science Discovering Secrets Of Leprosy

Caused By Bacteria Says Professor Of Tropical Medicine

Leprosy, the dread disease, which sends its victims into colonies of "The Living Dead," has begun to give its age-old secrets.

New evidence relative to the ancient scourge, tending to show it is caused by a definite bacterium and is not contagious has been gathered by one of the famous "microbe hunters" of the University of California.

He is Dr. E. L. Walker, professor of tropical medicine in the University Medical School, Berkeley, Cal., who recently returned from a 14 month stay in Honolulu. While there he carried on extensive investigations of the cause of leprosy at the Molokai Receiving Hospital.

Although Dr. Walker made it clear his findings are only tentative, he predicted that, if they are sustained by further research they will result in changes of great scientific, economic and governmental importance.

Here are the two conclusions reached as the result of his studies in Hawaii.

1. Leprosy is caused by a bacterium related to the fungus actinomyces, a plant-like growth of microscopic size, which thrives on a living organism, except that of man, but which is found in the soil virtually everywhere in Hawaii.

2. These bacteria enter the body in cuts or wounds about the feet, and are not transmitted by the leper, despite the cry of "unclean," which has driven him as an outcast from society.

Col. Charles A. Lindbergh has flown about 200,000 miles in his career as pilot, according to a report filed with the aeronautics branch of the commerce department.

With a view to promoting night flying in the Dominion the civil aviation branch of the department of national defence is planning a lighted airway along the shores of the St. Lawrence for 35 miles.

Small Town Papers

By FRANK PARKER STOCKBRIDGE

Small town papers are the backbone of the country press, and are doing a great deal to stimulate the country editor to produce better papers.

The Brookings Register, in South Dakota, for example, holds the current award for the best newspaper in the state.

That puts the Eastern publishers on their mettle but it was an Eastern paper, the Graphic, of Newton, Massachusetts, which won first prize in the association's advertising contest, while the News of Montevideo, Minnesota, took first place as an example of good newspaper production.

These awards are powerful influences for the betterment of the country press, the others agreed, but two or three spoke simultaneously of the schools of journalism as perhaps the most potent factor of all in the progress of the small-town weekly.

"You didn't think that all this flock of boys and girls who are being graduated every year from the schools of journalism were getting city jobs, did you?" asked Bert Mills, as I expressed surprise. "I don't know just how many there are—somewhere between thirty-five and fifty—journalists, I noticed that Prof. William A. Elyer, dean of the Wisconsin University school, said that there were more jobs than there were graduates to fill them, and I believe he's right. And many of these schools are concentrating on the problem of the small-town weekly rather than on the daily press."

For example, says almost no attention to journalism, when a boy or girl is graduated there he or she can always find a job on a country weekly. It won't be long, perhaps in our own time, when the country editor who is not a university graduate will be as rare a bird as the old-time tramp printer of today.

He turned the talk to the modern counterpart of the tramp printer, the real journeyman, who drifted from town to town and was the main reliance of the old-fashioned country editor.

The machine operator—usually a machinist as well as an operator and often an all-round printer as well—has taken his place, they think. And he's often as not a "line" man. He's the whistly bottle and the corn-cob pipe, the rascal jest and the dorkish spittion which made the old-time country newspaper shop so picturesque and glamorous. It is a ladylike boudoir nowadays by comparison. It was a New York line type operator, on the Cook Courier, who was crowned Queen of the Johnson County Fair last fall. No tramp printer ever achieved anything like that.

"Gentlemen," I said when we had got that far, "you have been breaking my heart by degrees ever since we foregathered. You have been making my life into a cocked hat. You have thrown romance into the boldest, as it were, and turned what was once a glorious, irresponsible adventure into a sordid, commercial, efficient, money-making business. I can survive those revelations, as I have survived the discovery that Santa Claus and the type loose alike are myths. But do not chatter any last remaining link with the romantic past. I am a rural journalist as I knew it in my youth. Do not, I beg of you, do not tell me that the patent inside is dead!"

My appeal moved them, though not in the least. They have taken to assure me that the patent inside still lives. The patent inside and its younger brother, the boiler plate of beloved memory, are still stand-by in five rural newspaper shops. Four or five thousand small-town weeklies are buying their paper stock printed on one side with a variety of news-features pictures, facts and the like calculated to appeal to the rural reader—but with this main difference from the old days: The editor has the privilege of selecting just what shall be furnished in his ready-print service instead of taking whatever the haughty magnates, who used to demand their money C.O.D. at the express office, choose to send him, advertisements and all. Or he can buy the same sort of material in holler plate, column-wide stereotyped strips of type metal, pictures and reading matter, which he can put on his own press and print from. And 20 per cent, or more of country weeklies now have their own stereotyping outfit, purchased or leased, with which they can cast their own plates from paper materials furnished by advertisers or obtained from the city which supply not only editorial feature, comics, cartoons, fashion and sport services, among others, but also well-designed advertising drawings and borders to enable the country newspaper to give its local merchants as attractive advertising display as one can find in the city papers.

Such co-operative services make it easier than ever for the ambitious young man to establish a credit country paper on small capital. Credit for equipment is extremely liberal; the country editor is no longer a financial pariah. Country papers are still starved on advertising, without a printing plant at all getting one per printed in the nearest good-sized town. If the editor-publishers is really in love with his job and his hustling hard for local news and advertising, he has a better chance than ever to establish himself in a country business, Bert Mills and the rest assured me. And the established country weekly today is as valuable and so profitable that B. Franklin Simms would turn over in his grave if he could hear how things have changed.

I guess that novelist is crazy like a fox.

CHRISTIE FIG BARS

Simply scrumptious... Christie's Fig Bars. Wholesome, too, and especially good for youngsters, because the filling is made with genuine Smyrna figs—pure and unadulterated.

In the store or on the phone, always ask for

Christie's Biscuits

The Standard of Quality Since 1853.

A SERVICE CHARGE ON SMALL ACCOUNTS

Is Predicted By Toronto Man But Bank Manager Thinks Not

Are Canadian banks likely to follow the example of those in the United States, which levy a service charge on small accounts? In the Financial Post, A. D. Watts, a Toronto and New York stock broker, was reported as saying to a group of the younger financial men of Toronto, that this would come about.

The question was in turn propounded to C. L. Hodgkin, manager of the Royal Bank of Canada, Brantford branch, and president of the Brantford Board of trade.

"I do not agree with Mr. Watts when he predicts that Canadian banks should and will charge a service fee for operating a savings bank account, for two reasons:

1. "That the Canadian banks are performing a national public service, encouraging thrift among the small and with this in view the banks will open a savings bank account with \$1 and will afterwards accept deposits for any amount the customer may wish to deposit."

2. "While it is true that in some cases savings banks accounts are operating at a loss, this is the exception, as when a savings bank depositor has been secured, he seldom leaves a bank and in many cases the original deposit has grown, in a few years, to a substantial balance and a profitable account and valuable connection for the bank."

"A small fee on small savings bank accounts would discourage many from acquiring the savings habit and while a few unprofitable accounts would be avoided by charging a service fee, the small increase in profits from this source would be more than counterbalanced by the increase in profit that accrues from the property engendered by thrift and the saving habit acquired throughout the whole Dominion."

New Industry In Winnipeg

One of the largest United States manufacturers of paper bags used in the cement industry is likely to locate in Winnipeg shortly, according to information received by the Industrial Development Board. Officials of the company have been in Winnipeg recently consulting with the Board as to the suitability of this location, and there is strong likelihood of their approving it.

To Improve Cattle Industry

Some 32 municipalities in Saskatchewan are in process of eliminating all grade sires and establishing themselves as purebred sire areas under the Act in force in this province. It has been estimated that, if all the calves in Saskatchewan were sired by good purebred bulls it would add \$15,000,000 to the value of the cattle in the province.

The "Flu"

LEFT HER WITH A VERY WEAK HEART

Mrs. Beulah Demore, Pleasant River, N.B., writes: "Having suffered with the 'flu' a few years ago, I was left with a very weak heart."

"I was unable to go about, and could not do my housework."

"I would get dizzy spells and would have to go and lie down."

"I could not sleep at night as the least little noise would wake me up."

"I tried different kinds of medicine, but they seemed to do me no good."

"A friend recommended Milburn's Heart Nerve Pills."

I have used five boxes and am much better; do not get those dizzy spells, and can do my own work as well as ever."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by T. Milburn Co. Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

MAY 20

JESUS TEACHING IN THE TEMPLE

Golden Text: "He taught them as one having authority."—Matthew 7: 28.

Devotional Reading: Psalm 119: 1-8.

Explanations and Comments

The Captious Question In Regard To Tribute, verses 13-17. The Herodians were partisans of Herod. A few of the Pharisees sympathized with the Herodians, but most Pharisees hated them as sordidly as they did the Sadducees, yet they united with Herodians and Sadducees in a plot to snare Jesus. The men whom they sent to Jesus prefaced their remarks by saying that the question they were about to propound was a dangerous one to answer, but they knew that He was not afraid of consequences.

"Thou regardest not the person of men, but of a truth teachest the way of God," they said. Thus would they flatter Him and put Him off His guard.

Then they asked their question, "Is it lawful to give tribute unto Caesar, or not?" The tribute, literally "tax," was money levied on the Jews and paid by every Jew. It was inquisitorial, followed a careful tally of the census, in which every man was obliged to report his family, his property, and his income, and was extremely onerous to the Jews, who counted it a badge of their national degradation. Its payment was resisted by some, especially among the Galileans, not only on political, but also on religious grounds.—Lyman Abbott.

The Pharisees asked their question with malice of forethought. If Jesus said "Yes," He would be bitterly antagonized the people, and if He said "No," He would accuse Him of treason to the Roman government. And indeed, two days later they falsely said to Him, "We found this man perverting the law."

Jesus denied there was an alternative; both were aspects of one duty. He would not teach contempt of the established government and disobedience to law. He would teach loyalty to God.

Jesus will let their evil intent. He quickly saw through the purpose of this flattery word. "Why make ye trial of Me?" He asked, as He called for a coin, a denarius on which was graven the image and name of Caesar. The coin represented Rome's services to the people governed, as well as Roman power and authority. "Whose is this image and superscription?" He asked. (A small boy in the crowd stepped forward to show Him thus: "He asked them to show Him a penny, and when they gave it to Him he said, 'Whose miserable superscription is this?'"

"Caesar's," they replied. Then said Jesus, "Render unto Caesar the things that are Caesar's." Render, give back; the coin came from Caesar, and they owed him something in return. They were accepting the services of Caesar's government; for these services they must render an equivalent.

Must Import Food

Irish Free State Imports Bulk Of Wheat and Flour Needed For Home Consumption

Of the population of the Irish Free State, 53 per cent, is engaged in agricultural occupations. But less than 13 per cent of the land is cultivated, and the industry is mainly pastoral. Of Irish agricultural workers 74 per cent, are the farmers and their families, and only 15 per cent, are permanent wage earners. The Free State imports most of its food. The average annual import of wheat and flour is 522,783 tons. The country itself produces only 30,000 tons of wheat, on an average, in a year.

A four-volume folio Bible printed in 1450 by Adolph Ruch, of Strasbourg, has been added to the rare book collection of the Princeton University library.

The risk of being struck by lightning is five times greater in the country than in the city, and twenty times greater at sea than on land.

Criticizes Medical Inspection System

Hon. George Langley Says Sending Canadian Doctors To Britain Creates Antagonism

Canada was confronted with a blockade of British immigration to the Dominion as a consequence of the new medical inspection system. This opinion was expressed by Hon. George Langley, former Minister of Agriculture for Saskatchewan, at the immigration inquiry in Ottawa.

"The sending of Canadian doctors into Great Britain has completely antagonized the medical men of the Old Country and has created an atmosphere of antagonism toward immigration to Canada. It is all over the country from one end to the other," continued Mr. Langley. "It was only through a recognition of the facts that the blockade could be removed as the displacement of British doctors did not meet with British public approval."

"You have to clear away this antagonism in the Old Country," he declared. "Roster doctors should be used in conjunction with Canadian doctors in medical examinations at British ports."

Mr. Langley recounted his experience as a member last year of the Canadian farmers' tour of the British Isles. He was somewhat critical of the 3,000 family settlement scheme in conjunction with Canadian doctors in medical examinations at British ports.

"The feeling in the Old Country," Mr. Langley stated, was that the scheme retarded the obtaining of the more desirable type of British immigrants such as the young single men.

Passage fares were too high, Mr. Langley commented. Efforts toward a reduction in ocean passage were made by the government.

"That has been tried," interjected Hon. Robert Forke.

Mr. Langley illustrated a prosperous situation in Canadian agriculture.

"The farming prospect of Canada has not been so good for 20 years as it is today," he remarked.

How Much Water Should Baby Get?

A Famous Authority's Rule

By Ruth Brittain

Baby specialists agree nowadays that during the first six months, babies must have three ounces of fluid per pound of body weight daily. An eight-pound baby, for instance, needs twenty-four ounces of fluid. Later on the rule is two ounces of fluid per pound of body weight. The amount of fluid absorbed by a breast fed baby is best determined by weighing him before and after feeding for the whole day; and it is easily calculated for the bottle fed one. Then make up any deficiency with water.

Giving baby sufficient water often relieves his feverish, crying, upset and restless spells. If it doesn't, give him a few drops of Fletcher's Castoria. For these and other ills of babies and children, such as colic, cholera, diarrhea, gas on stomach and bowels, constipation, sour stomach, loss of sleep, underweight, etc., leading physicians say there's nothing so effective. It is purely vegetable—the recipe is on the wrapper and millions of mothers have depended on it in over thirty years of ever increasing use. It regulates baby's bowels, makes him sleep and eat right, enables him to get full nourishment from his food so he increases in weight as he should. With each package you get a book on Motherhood written by Dr. W. H. Weight.

Just a word of caution. Look for the signature of Chas. H. Fletcher on the package so you'll be sure you get the genuine. The forty-cent bottles contain thirty-five doses.

CHAPTER XXIV.

It was at Fort Simpson, in November, on his way out, that Jack Doran heard of the war. They had floated down the Nehanni River on a moose-skin barge to the Liard, and down the Liard to the Mackenzie, on a spruce canoe, arriving in Fort Simpson one raw November day when an icy wind from the North gave warning of the freeze-up. They had brought with them a few furs, which George, the half-breed guide, had got to his trap-lines, and from the sale of these they hoped to be able to buy supplies for the home journey.

The summer had been full of adventure. They had seen the leaves come on the trees, the flowers bloom, and fade, the leaves fall, and now the lowering clouds of November, driven by the cold winds; but with their bags full of gold quartz to show what they had found, and their little heap of dirt carried in chamotte bags and glass plates, they were elated and confident.

Jack, with all the eagerness of the amateur, had been full of enthusiasm going in, and in the washing of gold from the sand of the river he had enjoyed endless delight. To see the glint of yellow gold in the black sand at the bottom of a pan fired his imagination. Keith had complimented him on his success in panning.

"She's gettin' better all the time," Keith had said, "so we are getting closer to the deposits." He had a map of the country, showing the exact spot where the claims would be staked. "You'll have some nuggets to bring home to that new wife of yours that will make her eyes pop out of her head."

It was in September they reached the place, and Keith announced the object of their search achieved. They staked their claims and gathered some rich pieces of quartz to bring back with them. Keith was exultant, and even George, the half-breed, grew garrulous with the prospect of riches. He was going to have three cars and a colored driver in a gray uniform!

Keith had the plan for staking all arranged. He showed them where the stakes would be placed, drawing a diagram to show the angle at which they would be set and how the riffles would be put in the bottom. He would bring the water in a pipe-line from

further up the river, and throw it against the banks of gravel in powerful jets. At the falls, up the river he would generate the electricity to run a stamp mill, where the crushed rock would be reduced to powder and passed through a sieve, and the gold collected on copper plate. There was a bigger trick to this field than there was in ninety-eight, he assured his eager listeners.

The return journey, lacking the stimulus of novelty which had kept them from discouragement going in, was tedious and depressing. Their way lay through a gloomy, barren country, and the weather was cold and wet. The shortening days and lengthening nights, too, were unfavorable to travelling. But at length, now, military aspirations, and their home life. He showed that they threatened the whole world. Major Gowsett had not been further than Boulogne during the present war, but one would never know it from his speech. It seemed with the steady of battle, it abounded in personal incidents. He dragged his listeners into shell-holes, dug-outs and across "No Man's Land," he specialized on the treachery of the Germans—the hate, more than their cowardice, it was hatred they had instilled into their children. He had lived with them, he said, and he knew. It seemed that he and Lord Roberts knew the war was coming, but England had not listened to them.

(To Be Continued.)

BABY'S OWN TABLETS
THE HOME DOCTOR

Baby's Own Tablets meet all the need that exists in every home where there are young children. They are laxative, but do not gripe. They are soothing, but do not contain one particle of opiate or other injurious material. They can be given to the slightest ailment to the most delicate child.

Baby's Own Tablets reduce fever, relieve colic, banish constipation and indigestion, check diarrhoea, sweeten the stomach and allay the irritation that accompanies the cutting of teeth. They quiet the nerves and promote healthy sleep and regular habits. The fact they are as good as a doctor in the home, and once a mother has used them for her little ones she will use nothing else. Thousands of mothers bear testimony to this. Among them is Mrs. H. H. Pine Falls, British Columbia, who writes: "I was told to try Baby's Own Tablets by a friend who had used them for all her little ones and said she could not do without them. After using them for my baby boy I quite agree with her. He is a healthy child and they are the finest medicine in the world for little ones."

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A six-weeks-old calf was nibbling at the grass in the yard and was viewed in silence for some minutes by the city girl. "Toll me," she said, turning quickly to her hostess, "does it really pay you to keep such a small cow as that?"

Minard's Liniment for Toothache.

The man who tries to prove too much very often proves nothing.

One way to put in your time is over the pawnbroker's counter.

The Experience of
Mrs. Roy Brown is Well
Worth Reading

Peterboro, Ont.—"I was in a miserable state of health, my nerves gave way completely, I could not sleep, my back aches and was completely exhausted. I was weak and dizzy and tired that I was compelled to give up and take to my bed. I was advised to try Dr. H. H. Pine Falls' Prescription, as nothing I had used helped me. By the time I had taken one bottle I was able to be up and around, I kept on taking it and was completely restored to health. I cannot say enough in praise of the 'Favorite Prescription' for the wonderful help it gave me."—Mrs. Roy Brown, 222 King St.

All druggists, Tablets or Liquid.

Exacting cup tests carried out in our blending rooms insure for Red Rose Orange Pekoe Tea quality that is absolutely uniform. This supreme tea comes to you at its peak of freshness and flavor because it is packed in aluminum—the only package worthy of its fine quality.

Teeth and Health

Issued by The Canadian Dental Council and Published by The Saskatchewan Dental Society

CHILDHOOD DISEASES AFFECTING TEETH

It occasionally happens that teeth erupt faulty in shape or with the enamel pitted and stained. This is usually a general disturbance from some constitutional disease associated with high temperatures, such as scarlet fever, measles, or chicken pox. Occasionally this disturbance is so great as to totally destroy the tooth germ and render it useless. It affects the tooth structure as described above.

But there are two general diseases that, in particular affect tooth structure and tooth eruption. Of these rickets is a disease of faulty nutrition and it is worthy of note that it is a disease not only of the very poor but of the well-to-do and sufficient food, but of the rich, who have an abundance of food but of an improper kind.

The characteristic effects of the teeth from rickets are these: the general body is emaciated, and in the more extreme cases, a general deformity of the skull and jaws, more or less, most teeth are loose, whilst the permanent teeth in turn erupt late; the result is, faulty or missing teeth. Moreover, the teeth themselves are structurally affected, being bluish, sparse and somewhat jagged.

The other disease, more or less specifically related to tooth malformation is tuberculosis.

In the case of tuberculosis, the erupting teeth are affected by the disease, and the permanent teeth in turn erupt late; the result is, faulty or missing teeth. Moreover, the teeth themselves are structurally affected, being bluish, sparse and somewhat jagged.

No Cause For Worry

Great Britain Still in a Position To Pay Her Debts

It is regrettable that into the United States presidential election campaign there have to be injected unwarranted attacks upon Great Britain. Here is what Senator Reed, in an address before the Daughters of the American Revolution, had to say: "England has been given 60 years in which to pay her debt to us, and God knows if she will be there that long."

Does the fact, the Halifax Herald wonders, that the Reds are in the midst of a political campaign give them warrant for such unmitigated nonsense. Perhaps it does. But when they have calmed down, may they run across this contemporary utterance by Winston Churchill, British Chancellor of the Exchequer: "England is not done yet. She still has the power to help a friend or pay a debt."

And Great Britain probably will enjoy that power for many years to come, when the Senator Reed will have been lost in oblivion and when much that passes for "one hundred per cent. Americanism" will look silly in retrospect.—Regina Daily Post.

Canada To Establish
Bureau Of Standards

Action Of Government Will Be Acceptable To Provinces

The Government proposes shortly to set up a Bureau of Standards which will operate under the National Research Council, according to Hon. James Malcolm, Minister of Trade and Commerce. When the new Bureau of Standards is established, he said, Canada will not have to accept her standards from Chicago. A Bureau of Standards would be acceptable to all the provinces of Canada as well as to the electric power companies throughout the Dominion, the Minister claimed.

Good Price For Frize Steer

Annie Turner, 11-year-old girl who cleaned up with her steer at the Kamloops, B.C. bull sale, as then proceeded to do the same at Calgary, afterwards led the animal into the ring at Edmonton, where it fetched 50 cents a pound live weight, the purchasers being the Hudson's Bay Company. The sale netted \$490, in addition to which the girl averaged \$150 were won at each of the three shows.

Neuralgia succumbs to Minard's Liniment.

An Outstanding Invention

Two Ontario Men Have Plans For Quick-Firing Machine Gun

The attention and interest of the world's war departments, especially the highest ordnance officers, are focused on London, Ont., at the present time because in this city plans have recently been completed for a new machine gun that is undoubtedly the most outstanding quick-firing invention yet perfected.

Otto P. Hindlehardt, superintendent of the Carling Brewery, assisted by H. Koenig, of Germany, now of London, is the inventor of this weapon which may have an important effect on the armaments of the world. Defects of both cooling and recoil systems prevalent in the machine guns of a nation in the world war have been entirely done away with in the new London gun, that is the result of seven years' tests and proving.

Probably the greatest advance made in the new quick-firer is the long-sought feature of non-explosive liquid air cooling—a goal sought by the war research laboratories of all nations. This invention alone can be readily disposed of for a very large sum, as the liquid air, which has been extremely dangerous to handle in the past, is now rendered perfectly safe. At last a machine gun that will not overheat, and necessarily have to cease action to cool off, has been built.

Speed Up Construction

German Contractors Use Furnace On Wheels To Dry Walls

Homes and apartments are so scarce in Berlin, Germany, that architects and contractors think up every conceivable device for hastening the process.

Their latest quick service help consists of a furnace on wheels which is calculated to hasten the drying process in buildings under construction. It is placed outside the house or apartment building, and furnace pipes are laid from it into the room to be dried. The heat is conducted just as though a hot air furnace were in operation in the basement.

In this way, it is estimated, construction is hastened by many days, as the painters and decorators can get busy much earlier.

Next month another 1,100 head of buffalo will be shipped from the Canadian National Park at Watn, to the big reserve north of the Peace River. Overstocking of the Watnwright Park renders this necessary.

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma, Remedy today, will prevent incipient condition from becoming chronic and saves hours of awful suffering.

The Arabs were the first to discover the art of refining sugar, with the Egyptians a close second.

Always Keep Cuticura
Preparations On Hand

The Soap, because of its absolute purity and emollient properties, is unsurpassed for every-day use. Assisted by Cuticura Ointment it does much to keep the skin and scalp healthy. Cuticura Shaving Stick makes easy for tender-faced men. Cuticura Talcum is the ideal toilet powder.

Sample Book Free by Mail. Address: Canadian Depot, 100-102 St. Patrick, Toronto, Ont. Send 10c for Sample Book.

Cuticura Shaving Stick 25c.

HERCULES

PERMANENT BUILDING PAPER

CUT IT—It doesn't tear easily

There's no denying that the most careful carpenter doesn't handle his tools with vainly movements of a dentist.

Consequently he will appreciate a building paper which allows him to throw careful handling to the winds and work rapidly without fear of tearing. Hercules Permanent Building Paper is tough. Tearing or cracking, in using is unheard of. Carpenters prefer it because it is easy to use.

Hercules—in three grades, x light, x medium, and x heavy, is wind proof and damp proof.

Send now for samples and prices.

Appleford Paper Products

HAMILTON, CANADA

Cutaway section of a Gum-Dipped Tire showing and cord untwisted into 15 strands. Every fibre of every strand is treated with rubber.

Why Gum-Dipping
Increases Tire Life

A tire in use is being constantly bent backwards and forwards by road action. Such movement generates friction and heat that has a deteriorating effect unless the tire is built to withstand it.

In the carcass of a Gum-Dipped tire there is no friction to generate heat because Gum-Dipping puts a coating of new live rubber around each separate cord that keeps it from rubbing against the cords that next to it. It stays cooler and therefore lasts longer.

Your local Firestone Dealer will gladly advise you on your tire problems. See him today.

DEM'S OUR SENTIMENTS

Premier King and Hon. R. B. Bennett had a wordy battle over immigration. Personally, we believe they should direct their attentions to home production.—Bassano Mail.

SCIENTIST AND EXPLORER TO VISIT THE FAR NORTH

With the object of studying the Eskimo people and investigating the flora and fauna of the far north, Prof. Ruggles Gate, professor of botany at King's College, London, and Major A. G. Church, well known British East African explorer, are planning a trip during the coming summer down the Mackenzie River to the Arctic. It is expected that the expedition will occupy between two and three months, and that valuable information on the northland will be secured.

PREMIER DELIVERS CONVOCATION ADDRESS

Premier Brownlee delivered the principal address at the eighteenth annual convocation of the University of Alberta on Tuesday, May 15th. Over two hundred students who have successfully completed their examination, comprising the largest graduating class in the history of the institution, were awarded degrees and medals; scholarships and prizes were presented on the year's work. Dr. H. M. Tory, the retiring president, reviewed the development of the university since its inception twenty years ago.

PROSPECTS LOOK FAVORABLE

G. G. Henderson returned on Sunday from Ottawa and Toronto, where he spent some three months on Home Bank business. Mr. Henderson says he has every hope that the House of Commons will vote an additional amount toward the Home Bank deficit sufficient to take care of those who did not get their share of the 35 per cent allowed by the government previously. He is not quite so sure that the senate will endorse the action of the house, but Mr. R. B. Bennett, Conservative leader, has promised to do all he can in the matter and it may go through all right.

The additional vote, if passed, should bring close to \$60,000 to Fernie Home Bank depositors.

We understand that Mr. Henderson brought back with him checks for quite a number of local depositors who had not yet received their 35%.—Fernie Free Press.

THE BUNION DERBY

ELYRA, Ohio, May 14.—Phillip Granville increased his grip on third place in the bunion derby Sunday night by tying for fourth place on the 63.3-mile lap from Fremont in 10:48:30. His elapsed time for the 2752.6 miles was 488:58:12. Andrew Constantineff of Toronto, 12th in the race, walked through in 13:46:20, 570:21:35. John Cronick, Saskatoon, held 8th place in 12:03:21, 521:22:21. S. Stevens, Calgary, kept 33rd in 12:45:36, 695:34:08. George Liebergall, Bellevue, 15:43:55, 591:00:30. Eugene Germain, Montreal, 17:07:18, 750:02:23. Thomas Ellis, Hamilton, 17:50:18, 753:27:23.

The two weekly papers at Claresholm have merged. In future just the one will be published, the Claresholm Local Press.

Many a man thinks he has an inclination to work as long as it is not the kind that produces perspiration.

Miss Mae Moore and Miss Elaine Leedham, of Parker Creek, are the roots of Mr. and Mrs. T. Kemp over he week end.

Inspector Meade was up from Lethbridge on Monday on a visit of inspection of the local detachment of the R.C.M.P.

Miss Madeleine Chardon attended the musical festival at Lethbridge on Tuesday, where several of her pupils competed.

Master Douglas Craig, of Blairmore, has been spending the past week with his cousin, Donald Fisher. Kokots Review.

Mrs. Wamersley, of Blairmore formerly of Redcliff, is spending this week in town, the guest of Mrs. W. Pickering.—Redcliff Review.

No fires may be lighted in the woods of British Columbia now without of special permits which may be secured without difficulty as in 1927.

We are pleased to see Mr. John Anderson around again. Mr. Anderson met with an accident over a month ago at the local mine, which disabled him from work for probably a few months.

An exchange remarks: "Sir Herbert Holt, multimillionaire, is one of the directors of eighty large Canadian corporations, in all of which he has financial interests. Apparently he believes in 'What I have I hold'."

The dance held by the Blairmore Tennis Club in the Greenhill Grill on Friday night of last week was quite a success. The committee wishes to heartily thank everybody for their patronage and assistance rendered.

It. Eccleston is having a run of bad luck these days. Last week he lost a finger nail at work, and no sooner was he returned than he had the misfortune to cut his foot. The injury, although not serious, will keep him off for some time.—Kimberley Press.

The first annual ball under the auspices of the newly constituted Father Lacombe Council of the Knights of Columbus will take place at the opera house on Monday night next. The institution of the new lodge will take place on Sunday, to be followed by a banquet the same evening. These functions will be held in the opera house.

We have on display in our window the envelope of what we believe to be the first letter, delivered in the Pass from the Eastern States to cover part of its journey by air. The letter was posted at Syracuse, N.Y., at 10:30 p.m. on May 2nd; again stamped at Cleveland, Ohio, 9:30 p.m. May 3rd, and delivered to the recipient, William J. Tucker, at Frank off May 6th. What route the letter took from Cleveland there is no other post marks to disclose, but delivery was effected in about 92 hours. The envelope is a specially prepared one for this service, having the outer edge alternately striped in red and blue diagonally and inwardly for about a quarter of an inch and bears an official ten-cent stamp of the U.S. Lindeberg Air Mail postage. The back contains the name of the line, the Colonial Western Airways, Inc., the notation that the envelope is to be used for air mail only, and the slogan "Mail air ly and avoid delay."

Teacher at the local school: "With steak at 45 cents a pound, what would four and a half pounds come to?" Johnny: "It wouldn't come to our house!"

Two old Scotchmen sat by the roadside, puffing solemnly at their pipes. "There's no much pleasure in smoking," Donald, said Sandy. "Hoo dae ye mak' that out?" questioned Donald. "Weel, if ye're smokin' yer ain bacca, ye're thinkin' o' the awfu' expense, an' if ye're smokin' lither body's, ye're pipe's rammed 'ae tight 't winna draw."

Aesthetic

Cholly (to shepherd): "I say—an could you take that yellow tie with the pink spots out of the window for me?"

Shepherd: "Certainly, sir. Please to take anything out of the window any time, sir."

Cholly: "Thanks, awfu'. The beastly thing bothers me every time I pass. Good mornin'."

Back Seat Record

He had just bought a car. His wife went with him on a few expeditions, and did not hesitate to criticize her husband's driving.

"Hello, old man!" said a neighbor one evening. "I see you've got a car. What do you get out of her?"

"About 40,000 words to the gallon," answered the husband.

If pipe ashes burn the palm of your hand they are hot enough to set fire to the bush. Watch out. It doesn't take much to start a million-dollar fire some times and places. Once burnt over a forest area may be useless for generations.

A certain drunk, taken to the police station recently, was never booked because he gave the night squad the best laugh they've had in a long time.

"How did you happen to be lying there in the gutter?" demanded the sergeant severely.

"Sall right, boss. I jus' happened to walk between two lamp posts and leaned against the wrong one," was the candid reply.

Millions and millions of dollars' worth of wealth belonging to the people of Canada have been lost because men thought camp fires would burn out by themselves. Sometimes they do. But if they don't we pay dear for it.

Baldy Put

Miss Brown had served the firm faithfully for twenty years, and the nervous staff manager had to propose her health at the annual dinner. "Ladies and gentlemen," he began, "even today some people are apt to sneer at women in business, and say their face is their fortune. I am sure you will all agree that no such charge could be levelled against Miss Brown."

A terrible silence followed.

If every man, woman and child in Canada would realize the danger of fire, practise carefulness at all times, and back up the fire ranger in his efforts to control fire outbreaks, Canada would save millions of dollars worth of timber every year.

Powerful, Penetrating Antiseptic Oil Heals Eczema and Other Skin Diseases

Must Give Results in 7 Days or Money Back

Make up your mind today that you are going to give your skin a real chance to get well.

Like a lot of other people, you've probably been convinced that the only thing to use was an ointment or salve (some of them are very good) but in the big majority of cases these sticky salves simply clog the pores and the condition primarily remains the same.

Go to any good druggist today and get an original bottle of Moore's Em-

erald Oil.

The very first application will give you relief and a few short treatments will thoroughly convince you that by sticking faithfully to it for a short while your skin troubles will be a thing of the past.

Remember that Moore's Emerald Oil is a clean, powerful, penetrating Antiseptic Oil that does not stain or leave a greasy residue and that it must give complete satisfaction or your money cheerfully refunded.

STUDEBAKER

The Great Independent

A New Record

for stock cars in its price class

Better than
a mile a minute
for 5000 miles

The Dictator '1555 to '1875

F. O. B. FACTORY

BY traveling 5,000 miles in 4,751 consecutive minutes, the Studebaker Dictator has established a record unequalled by any stock car in the same price class—comparable to the existing world record of 5,000 miles in 4,550 minutes made by the Studebaker Commander last fall.

And not one, but two Dictator Roadsters, fully equipped, each traveled 5,000 miles in less than that number of minutes. The run was made at the Atlantic City Speedway, April 20-23, under the supervision of the Contest Board of the American Automobile Association. Before and after the run, the cars were checked by the Technical Committee and were pronounced strictly stock models.

CLAIMS vs. FACTS

Automobile advertising is full of extravagant claims of performance. But Studebaker offers you definite FACTS supported by the certificate of the highest motoring authority. Under A. A. A. supervision

The Commander has made a record never approached by any other car on earth (25,000 miles in less than 23,000 minutes). The Erakine and The Dictator have made records unequalled by any other stock cars at or near their prices.

The high quality of materials, the precision workmanship, the rigid inspections and the engineering genius in the Studebaker Dictator are proved not only by its ability to travel 5,000 miles in less than 4,800 consecutive minutes, but also by the fact that any Dictator can be driven 40 miles per hour as soon as it leaves the assembly line at the factory.

Backed by Studebaker's 76-year reputation for quality and value, The Dictator offers champion performance at a low One-Price price.

Values in Four Price Fields

President Eight, \$2620 to \$3415; The Commander, \$1950 to \$2255; The Dictator, \$1355 to \$1875; The Erakine Six, \$995 to \$1205. All prices f.o.b. Walkerville. Government taxes to be added.

Johnny's Role

In an infants' school the teacher told the children to play at imitating animals. They were soon very busy, some were horses, some sheep, some cows and pigs. In fact everyone was trying to imitate some animal.

Little Johnny, however, was sitting very still in a corner.

The teacher, thinking he was not well, said to him: "Now, Johnny, why don't you play?"

Johnny said: "Hush teacher, hush I am a hen laying an egg."

ways like this."
Lady: "No. Last week it was your
other arm that was missing!"

Misses Mildred and Bessie Pass-
more are home from Vancouver on a
big holiday visit with their parents,
Mr. and Mrs. G. A. Passmore.

A Calgary dentist and two young
ladies, representing themselves as
graduate nurses, landed themselves
in jail at Bassano when they intro-
duced a money-making scheme.

Senator G. C. King, father of Hon.
Dr. King, formerly of Edmonton, died
recently. The remains were laid to
rest at Chipman, Nova Scotia, on
May 6th.

On the occasion of Mr. C. S. Out-
mire resigning the position of treas-
urer prior to leaving for other fields
of labor, the Coleman Elks present-
ed him with a beautiful case of pipes
and tobacco pouch.

The marriage took place recently
at Taber, of Joseph Swedish, son
of Mrs. A. Swedish, of Lethbridge, and
Miss Elaine Leitham, daughter of
Mr. W. Leitham, of Pincher Creek.
The young couple have taken up re-
sidence in Lethbridge.

The Enterprise has just received
an outline of the programme of the
annual Cowley sports, which this year
will take place on Wednesday, June
13th, instead of May 24th. A
big day is looked forward to. See
big bills for particulars.

The marriage of Miss Barbara
Buchanan, eldest daughter of Mr.
John Garrett, of Lethbridge, to Mr.
Tom Arnold, also of Lethbridge, took
place on May 15th. Mr. and Mrs.
Daniel Rees and son Donald, and Mrs.
James Stewart, of Blaimore, attend-
ed the ceremony.

Mrs. M. S. Saunders, of Calgary,
grand warden of the Rebekah Assem-
bly of Alberta, is in the Pass this
week. On Tuesday night she paid an
official visit to Victoria Rebekah
Lodge at Coleman. Last night Ray
of Hope Lodge at Bellevue was vis-
ited, and tonight Mrs. Saunders will
be entertained by Crowview Rebekah
Lodge here.

HILLCREST HAPPENINGS

Mother's Day service at the United
church was attended by a large con-
gregation, and a beautiful service
was gone through by the junior choir
and Sunday school. The pastor gave
an address on "A Mother's Throne."

Mrs. Norman Henderson passed
away at her home here at 4 a.m. on
Saturday, May 12th, after a lengthy
illness. The end came very suddenly
and was a great shock to the whole
community. The husband, Mr. Nor-
man Henderson, and Herbert, arrived
home Saturday morning, Robert hav-
ing arrived from California on Fri-
day. Mrs. Henderson had resided in
Hillcrest for eleven years, and had
been active in everything making for
the community's betterment. For a
number of years she was president of
the Ladies' Aid of the United church.
The funeral on Sunday afternoon was
very largely attended and the many
beautiful floral tributes were evidence
of the esteem in which she was held.
Rev. Roy C. Taylor conducted a very
impressive service at the home. The
funeral arrangements were in charge
of Mr. A. E. Ferguson, of Blaimore.
Surviving Mrs. Henderson are the
husband, three sons, Harold, Herbert
and Robert, and Mayne, an only
daughter. The heartfelt sympathy of
the people of Hillcrest is extended to
the family. Mrs. Henderson was born
in Springhill, Nova Scotia.

COWLEY HAPPENINGS

Mother's Day services will be held
in the United church here on Sunday
next.

The Canadian Legion will give a
dance on the night of May the 24th
in the I.O.O.F. hall. The Knights of
Rhythm will be in attendance.

Mike Sukarow, an independent
Doughboor, was arrested on Monday
and found guilty in a magistrate's
court of stealing cattle from the
Doughboor community. He received
a sentence of one year in the Leth-
bridge jail.

The annual Cowley sports have
been postponed, on account of track
and weather conditions, from May
24th to June 13th. The regular pro-
gramme of races, bucking contest,
baseball tournament and other fea-
tures will be carried out. A lively
midway will be in charge of the Can-
adian Legion. A big dance will be
held in the evening.

A disastrous fire occurred at the
farm of Andy Kerr, one and a half
miles west of town, at 3.30 Thursday
afternoon, when the barn and straw
stacks ignited from burning stubble,
the wind having turned while Mr.
Kerr was too far away to control it.
Although all available help was rush-
ed from Cowley in response to a
phone call, nothing could be done to
save the barn and outbuildings. The
residence was saved by the chemical
engine. The loss, in addition to the
barn, feed stack and poultry house,
was several hundred bushels of grain,
one new binder, fanning mill, brooder,
fifty chickens and a calf.

Mr. J. F. Mahoney has disposed of
his interest in the Cosmopolitan hotel
to Mr. James F. Smith, of Cal-
gary, the transfer taking place on
Monday of this week. The beer par-
lor will be operated by Mr. Mahoney
until the regular red tape attending
the securing of a license by the new
proprietor has been completed. We
understand that Mr. and Mrs. Ma-
honey will spend a few weeks in the
southern States before locating else-
where in Alberta.

A grand ball under the auspices
of Cowley Branch No. 23 of the Can-
adian Legion, B.E.S.L., will be held
in the Oddfellows' hall at Cowley on
the night of Thursday next, May 24.

A Blaimore social item in the
Calgary Albertan of yesterday states
that music for the Temis Club dance
was supplied by the Knights of Pyth-
ias. No wonder Joe Wolstenholme,
the chancellor - commander, feels
chesty.

IN MEMORIAM

In loving memory of John William
Clasper Harrison, who died May 21,
1928.

"There is still a memory living
Of the boy we loved so dear,
Though his face we cannot see, nor
His voice we cannot hear.
But his memory is with us
Always as the years roll by,
Until we join one another
In that land on regions high."

Ever remembered by his loving
Father, Mother, Sisters and Brothers.

GOVERNMENT LIQUOR CONTROL ACT OF ALBERTA

**APPLICATION FOR
BEER LICENSE**

PUBLIC NOTICE is hereby given
that the undersigned intends apply-
ing to the Alberta Liquor Control
Board for a License to sell Beer by
the glass, or open bottle, for con-
sumption in conformity with the
provisions of the Government Liquor
Control Act of Alberta, and regula-
tions made thereunder, with respect
to the following premises:
The Cosmopolitan Hotel, brick
building, situated on Lots 1 and 2,
Block 4, Plan 3319-1, corner of Sixth
Avenue and Victoria Street, in the
Town of Blaimore, Alberta. The
Beer salesroom to be on the ground
floor on east side of hotel, having
entrance from the hotel returns and
from Victoria Street front.
License at present held by John F.
Mahoney.

DATED at Blaimore, Alberta, this
14th day of May, 1928.
JAMES F. SMITH,
May 17-14] Applicant.

The sculptor had just finished his
model of an angel, and one of his
numerous friends had called in to
see it, and at the same time gave
a little friendly criticism.

"I say," he said, "angels don't wear
silk stockings. Did you ever see an
angel in high-heeled shoes and silk
stockings?"

"Did you ever see one without
them?" came the prompt question.

For Humanity!

The world scroll upon which is inscribed the names of men and women who have rendered distinguished service to the cause of humanity contains no name more worthy of such recognition than that of Henri Dunant, the centenary of whose birth in Geneva, Switzerland, was observed throughout the world on May 28, of this year, and who lived to the ripe old age of 82 years.

What service did Henri Dunant render to mankind entitling him to this honor?

As a young man of 31 years, Dunant, author and philosopher, was travelling for pleasure in the summer of 1859 in Northern Italy, and happened to arrive in the neighborhood of Solferino just at the conclusion of the battle which is known by that name, and which was waged between the Austrians under Francis Joseph II. and the Allied French and Sardinians. The opposing forces were of about equal strength, the total of men engaged being something over 300,000. The armies met in the early morning and fought a sanguinary conflict until about two o'clock in the afternoon, when the Austrians were forced to retire. For so short a battle the losses were large, totalling in killed, wounded, and missing about 40,000.

Upon such a scene of carnage came Henri Dunant accidentally in the course of his journey for pleasure. Suffering and dying soldiers left on the field filled his heart with their cries and groans, but there was no organized care for them. His deepest sympathies stirred for these fellowmen, who but a few hours before were in the pride of health and strength, Henri Dunant organized the neighboring villagers who did what little they could to cope with the gigantic task of ministering to those whose lives might still be saved.

But Henri Dunant did more. The vivid and terrible scenes he had witnessed so impressed themselves upon his mind that a year or two later he published his experiences in a small volume entitled "Un Souvenir de Solferino" (A Remembrance of Solferino), in which he advocated the formation of voluntary organizations to aid the army authorities in carrying out the national obligation of caring for the sick and wounded in future campaigns.

The result was the organization of the great world-wide Red Cross Society.

In this day and generation, with the events of the Great World War still fresh in mind, it is unnecessary to attempt any review of this international neutral, humanitarian organization. Sufficient it is to say that probably no other organization in the world's history has a finer record of achievement, or so completely commands the confidence and support of all peoples. The Red Cross flag and insignia is known, and respected everywhere as a sign of absolute neutrality among warring nations, and the highest standard of self-sacrificing service to all suffering humanity.

Originated for service to the sick and wounded of armies in time of war, its amazingly efficient organization and outstanding service during the Great War so impressed the statesmen of the world confronted with all the difficulties of after-the-war reconstruction of a well-nigh bankrupt civilization, that the Peace Conference at Versailles unanimously called upon the Red Cross throughout the world to remain organized and active, and undertake a comprehensive peace-time work among the civilian populations.

To the Red Cross, therefore, the creation of Henri Dunant, was accorded the distinction of being the only organization, apart from Governments, recognized in the Covenant of the League of Nations, with the solemn obligation imposed on all nations joining the League to encourage and promote the organization of voluntary national Red Cross Societies, having for their object "the promotion of health, the prevention of disease, and the mitigation of suffering throughout the world."

Today, throughout the world, the Red Cross with its tens of millions of members, including all races, languages and creeds, is engaged in its mission of mercy. When Nature in a violent mood brings disaster upon a small community, or a Province, or a whole nation, the Red Cross is the first on the spot. Should an epidemic of disease break out, the Red Cross nurse and voluntary worker, inspired by the heroic and humanitarian ideals of Dunant and Florence Nightingale, are active in the alleviation of suffering. Unceasing, too, is the Red Cross educational campaign in the promotion of health and the prevention of disease. And should war again infect mankind, the Red Cross will be found better organized and stronger than ever to assume the burden thus imposed upon it.

In the galaxy of the world's great humanitarians, Pasteur, Jenner, Lister, Florence Nightingale, William Booth, Curie, and others, the name of Henri Dunant shines brightly, while the sympathy which prompted his action on the bloody field of Solferino, and the inspiration leading to his conception of a great neutral volunteer organization in the cause of suffering humanity, continues to call forth the most splendid self-denial and service under the banner of the Red Cross.

Stocking Alberta Fishing Waters

A total of 1,024,675 potential game fish were distributed in Alberta fishing waters in 1927. These included eyed eggs, fry and fingerlings of Loch Leven, Outthroat and Rainbow trout. In addition, nearly three million whitefish eggs were placed in commercial fishing waters in order to maintain the supply of fish for this growing industry in the province.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quiet method. Regula comes almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Textile Plant For Edmonton

Western Wool Into Fabrics

The establishment of a plant in Edmonton by the Western Canadian Woolen Mills, Ltd., is contemplated during the coming summer, according to an announcement made recently. This project has been under an exhaustive series of technical experiments. The mill production has been scheduled to include a range of fabrics including blankets, light and heavy tweeds, overcoatings, velours, dannels and other types of cloth for which western wool is suited.

RICH, RED BLOOD A REAL NERVE TONIC

The Source Of All Nervousness

Is Weak, Watery Blood

Many people, both men and women, find themselves run down through overwork, or anxieties. Such sufferers find themselves tired, low-spirited and depressed. Their nerves seem to be worn out and they suffer from headaches and other nerve pains. All this comes from starved nerves.

Doctored the nerves with poisonous medicines is a long time. The only real nerve tonic is a good supply of rich red blood. Therefore to relieve nervousness and run-down health Dr. Williams' Pink Pills should be taken. These pills enrich the blood, which tones the nerves, improves the appetite, gives new strength and spirits and makes hitherto despondent people bright and cheerful. Miss Irene Dene, R.R. No. 1, Washago, Ont., tells what Dr. Williams' Pink Pills did for her as follows: "I suffered for a long time with my nerves and a generally run-down condition. I grew so weak that I had to lie in bed a part of every day. I could not do any work and was taking medicine all the time, trying one medicine after another. I was advised to try Dr. Williams' Pink Pills and I have reason to be thankful that I acted on this advice. This was the first medicine that gave me any relief, and in a comparatively short time restored me to the blessing of good health. When I think of the marvelous good these pills did me, I can most highly recommend them to all weak, nervous people."

If you are at all run-down, or weak, you should begin at once to take Dr. Williams' Pink Pills and you will soon be well and strong. These pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Faces Carved On Building

Likenesses Of Men Prominent In Chemical World Appear On New Structure

Faces of living men are carved in stone on the new million-pound building of the Imperial Chemical Industries nearing completion at Westminster Exchange.

One of the faces is that of the head of the concern, Sir Alfred Mond. All the other carvings are said to be excellent likenesses of many men prominent in the chemical world.

The sculpture around the building also includes figures of personages which are said to be there as a symbol of incorruptibility, following the ancient tradition that the flesh of the peacock is incorruptible.

Nation-Wide Fame.—There is scarcely a corner of the great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from rheumatism. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

Film Industry In Calgary

Production of the first of a series of British films for use under Great Britain's quota law will be started in Calgary this month, May 1. Local capitalists, including P. Burns and A. E. Cross, are backing the project. Neal Hart will be the director of the first picture, which will be western in its flavor.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Buying Registered Seed

Saskatchewan Farmers Have Purchased Much More This Year

The Saskatchewan Registered Seed Association advises that farmers throughout the province have purchased more registered seed this year than in any year in the past and that they are becoming more interested in good seed. There has been a heavy movement of tractors from United States points to points in Saskatchewan this spring and the sale of motor trucks has greatly increased. Evidently farmers are becoming more and more interested in mechanical power.

During the war, Germany raised 12,000,000 men.

Insist on Minard's Liniment—accept no other.

W. N. U. 1738

AFTER ALL There's Nothing To Equal Zam-Buk FOR THE SKIN!

Recipes For This Week
(By Betty Barclay)

QUEEN GEORGIA'S CAKE
½ cup shortening.
1½ cups sugar.
3 eggs.
¾ cup sour milk.
1 teaspoon soda.
¾ cup raisin juice.
1 cup nectar raisins.
1 teaspoon salt.
1 teaspoon nutmeg.
1 teaspoon cloves.
1 teaspoon cinnamon.
2 cups flour.
4 teaspoons baking powder.

Pump raisins, drain and chop, using a coarse cutter. Cream together shortening and sugar. Add 3 beaten egg yolks and 1 white (save remaining whites for frosting), raisins, sour milk, and raisin juice. Combine with flour sifted with baking powder, soda, salt, and spices. Mix thoroughly. Pour into 3 greased layer cake pans and bake 15 minutes in a moderate oven (350 degrees F.). Put together with jelly frosting.

BUFF WEDDING SALAD

Cover individual salad plates with crisp leaves of head lettuce. Place on these, strips of fresh or canned pineapple, sliced squares of brussels sprouts, cut thick, and a few smaller sections of sweetened grapefruit pulp. Top with a mound of flavored whipped cream and a maraschino cherry or strawberry. Just before serving add a little lemon juice—juice of one lemon mixed with two tablespoons granulated or powdered sugar. An ideal salad for wedding feast, or for a company dinner.

Record Building Activity

Building and construction contracts awarded in Canada during the month of April, 1928, totalled \$56,845,800 in value, the largest total for any month ever recorded except for May, 1928, when \$57,139,700 worth of new work was contracted for. During April this year, \$119,962,200 was the total of contemplated work to the Dominion. This total is the largest ever recorded for any month without exception.

The accumulative contracts awarded for the first four months of the year is surprisingly large compared with previous years. It now stands at \$125,647,100.

Calgary's Population

Calgary's municipal report on the city's population places the total at 72,500 this spring. The figures given by the census of 1926 were 65,513. Two hundred houses were erected here last year, and 300 will be built this year. There is an increase of 30 per cent in the quantity of household effects being brought in by new residents. Blocks and apartment houses are all at full and hotels are operating at capacity.

Useful In Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Will Construct Power Plant

Construction of the first unit of a big power plant in the Estevan coal field is announced by the Montreux Engineering Company—a \$750,000 project which will represent the first actual development of power in Saskatchewan by a central generating station for distribution over a wide territory.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Moller's Worm Expeller.

National wealth of Canada is assessed at \$2,772 per head of population. Get in the line early and make sure of your share.

Minard's Liniment for falling hair.

"Can you give me an example of wasted energy?"
"Yes sir; telling a hair-raising story to a bald-headed man."

Heat naturally flows from a hot body to a colder one even in the electric refrigerator.

Wheat Pool Building Fastest Grain Elevator

Elevator Now Under Construction Will Have a Capacity Of 6,900,000 Bushels

Work has begun on the construction of a 6,900,000 bushel capacity grain elevator at Port Arthur for the Saskatchewan Wheat Pool, which, it is said, will be the most modern and the fastest operating terminal elevator in North America. It will be ready for operation about October 15, 1928. When completed it will be served by both the Canadian National and Canadian Pacific Railways, and will be able to receive as many as 500 cars of grain per day during the rush season. It will have a capacity of 300 cars per day of ten hours, and will be able to ship out grain at the rate of 150,000 bushels per hour.

The total length of the new elevator known as Terminal No. 7 will be 1,344 feet and the width 226 feet. The elevator trackage will provide space for 225 loaded cars to be loaded at one time, ready for dumping by the five automatic car dumpers, each of which will completely unload a car of grain in ten minutes on the average. To take care of this immense volume of grain 28 elevator legs will be required to take the grain to the top of the elevator, from whence it is dumped into the scale garsers.

The completion of this terminal elevator will give the Saskatchewan Wheat Pool a total capacity of 22,975,000 bushels at the head of the Great Lakes which, together with a 2,000,000 bushel terminal elevator at Buffalo and the space provided by the Pool country elevator system in Saskatchewan, will give a total grain storage capacity of more than 30,000,000 bushels for the 1928-29 crop year.

A Timely Suggestion

The farm hand took his girl for a heavy ride. Nine miles out in the country the horse dropped dead. Louise said she knew she'd drop dead; too it was a terrible predicament. "Suppose I give you a nice, sweet kiss. That will put lots of life in you." "Are you sure that a kiss will put lots of life in me?" "Positive, darling." "Then, suppose you kiss the horse."

FIREPROOF Farm Construction

GYPROC Fireproof Wallboard is used in the building of elaborate country homes equally as much as for garages, grain bins, poultry houses and barns. For repairs and alterations — for remodelling — for partitioning off extra rooms — is the most economical and satisfactory wallboard on the market.

Gyproc protects from cold, heat, fire, sound and vermin — yet costs less than materials which do none of these things. Quick and easy to apply. It can neither crack, warp, bulge or shrink. By filling the joints with Gyproc Joint Filler you get a smooth, flat, air-tight surface through which fire, heat, cold and sound cannot penetrate.

Gyproc comes in broad, light, ceiling-high sheets of gypsum rock. Taken at its own Good Judgment, which contains valuable information on Gyproc and home decoration.

Clip and fill in coupon for interesting free booklet.

GREAT BRITAIN IS ANXIOUS TO OUTLAW WAR

London.—Sir Austen Chamberlain, secretary of the foreign office, speaking in the House of Commons concerning the Kellogg outlay of war proposals, said that the British government not only warmly welcomed the initiative of the U.S. but was hopeful it would be successfully concluded, and would make a real contribution to world peace.

Sir Austen's statement followed remarks by Ramsay MacDonald, the Labor leader, who supported the Kellogg proposals.

"Our attitude toward this note is going to have a very considerable influence in Anglo-American relations," Mr. MacDonald said. "Nobody who has been in America recently or who has followed the American press will deny that these relations are not quite as good as they ought to be."

Sir Austen said he would proceed in the ordinary diplomatic channels in treating on the proposals, although he had at first favored submitting the matter to a conference of international jurists, as the case of the Loening proposal.

This idea was dropped, however, he explained, when "one of the governments concerned"—understood to be the United States—indicated that it did not approve this method.

The British attitude, the foreign secretary continued, had already been forwarded to the governments of the dominions in order that all elements of the empire might seek a common position toward the proposal. He expected to transmit the reply to Secretary Kellogg soon after the responses of the dominions were received.

Sir Austen was heard with profound interest by the whole chamber. The only mark of disapproval came when he said that war had never been used as an international policy by any British government of the present era. Here the Labor benches burst into protest, but the secretary maintained his position.

Ramsay MacDonald said first reaction was that the proposal was ridiculous, in view of the complicated nature of the problems and the simplicity of the Kellogg scheme. Later he was convinced that the plan was bound to be a forward step in the battle for peace. Its realization, he said, would make it impossible for nations to threaten war, and thus prevent sowing the seeds of war.

David Lloyd George was another who argued that there would be no point in making reservations to the United States proposal.

Made Chancellor Of Oxford University

Viscount Grey Of Falloden Elected By Academics

London.—Viscount Grey of Falloden, former secretary of state for foreign affairs, will be elected by acclamation to the chancellorship of the University of Oxford in succession to the late Viscount Cave. Apart from the gracious gesture to Viscount Grey the decision to elect him without a contest is generally regarded as an indication of the university authorities' desire to separate the chancellorship from its association with politics.

Viscount Grey was foreign secretary from 1905 to 1910.

Hunting Gold With Planes

New York.—An airplane hunt for gold in Ontario is planned by Jack Hammell, wealthy gold mine owner. Hammell, who is president of the North American Exploration Company, has purchased a Fairchild monoplane for the trip, and said four Fokker planes would join the quest in June. The expedition would head for the Red Lake district of North-western Ontario.

Italian Naval Program

Rome.—A new Italian naval building programme was announced by Under-Secretary Siranni in the senate recently. Siranni said the new programme complements preceding ones and provides for the construction of two 10,000-ton cruisers, four destroyers, and four submarines, for which contracts will be let this month.

Killed By Father's Car

Toronto.—A few minutes after her father had kissed her goodbye at his doorstep, 15-month-old Ruth Dewbury, daughter of Mrs. Ruth Dewbury, was run over and killed by a car driven by her parent in Mimico, suburb.

W. N. U. 1733

Would Follow British Plan

United Farmers Of Canada Have Scheme For Co-Operative Stores

Winnipeg.—An elaborate scheme for the organization of co-operative societies on the British model is now being drawn up by the United Farmers of Canada, according to W. M. Thrasher, secretary of the Saskatchewan section of that body. It is hoped to lay the foundation of a system of stores which will ultimately extend all over the West.

The central body in Canada will, it is understood, have the hearty co-operation of the great British Wholesale Co-operative in Manchester, which serves millions of customers in hundreds of stores all over the United Kingdom.

Share capital in small units, Mr. Thrasher stated, will be subscribed to start stores, and safeguards will be erected to prevent any one shareholder from becoming predominant. Though called share capital, the stock to be issued will, virtually be debentures in nature, since it will receive only a fixed return on the investment.

May Consult League

Possibility Of China and Japan Submitting Dispute To Geneva

Geneva.—A protest from China to the League of Nations over Japanese military action in Shantung is a possibility, Cheng Loh, Chinese member of the League Council, said in the Associated Press correspondent. He adds he was awaiting instruction from his government at Peking.

Cheng Loh, who is now in Paris but is coming to Geneva for the meeting of the council in June, said over the telephone that both Northerners and Southerners have the same view concerning the attitude of the Japanese in Shantung. He thought it conceivable that both factions might unite in deciding to submit the dispute to the League of Nations.

Japan's attitude on the question of referring to the League of Nations the dispute is unknown here. The Chinese-Japanese conflict is regarded in Geneva as cutting straight across the Kellogg outlay of war proposal.

Looking For New President

University Of Alberta Will Seek Strong Man To Fill Vacant Position

Edmonton.—Hon. Fernan Baker, minister of education, will leave shortly for points east, on a tour of investigation that will have as its objective the location of likely appointees to the vacant presidency of the University of Alberta.

He will go right across the Dominion, to the Maritime provinces, and may also cross the line into the Eastern and middle states.

It has not even been decided yet that the new university president is to be a Canadian, but other things being equal, the preference will naturally be given to a man Canadian-born or at least Canadian experienced.

New Road To Coast

Project Roads For Northern British Columbia Country

Victoria, B.C.—A new railway route pass through the mountains from the Peace River valley to the northern British Columbia country was announced by H. M. Rolston, editor of the Portland Canal News who was here on his way north to Stewart.

"The new pass which has just been located for getting over the Nias and Siema watersheds to the Finlay basin, is 3,500 feet lower than the original pass mapped under Sir Donald Mann," Mr. Rolston said.

"It will mean a much easier railway route to the coast."

Alberta Mounted Rifles

Ottawa.—"C" Squadron, 2nd Regiment the Alberta Mounted Rifles at Nanton, has been reallocated at High River, Alta., the department of a regional defence has announced. A rational badge of revised design has been authorized for the Saskatoon Light Infantry, Saskatoon, Sask.

Governor Leaving Hong Kong

Hong Kong.—Sir Cecil Clementi, Governor of Hong Kong, has left for England. He is returning via Canada. Sir Cecil Clementi has been governor of Hong Kong since 1925, and has been in public service in China for many years.

Man, Power Plane

New York.—A model aeroplane, the motive power of which is obtained by hand as a boat is rowed, has been demonstrated by Lehman Well, who now plans to construct a man-sized machine on the same principle. The model in test rapidly took the air.

Plan Meets Opposition

British House Discusses Cold Storage For Imported Meat

London.—Speaking for the government in the House of Lords, Lord Strathmore, minister of agriculture, promised most carefully to consider a suggestion that all refrigerated meat imported into Great Britain from countries where the foot and mouth disease is prevalent should be placed in cold storage at the port of landing for three weeks.

Lord Kysant, in opposing the suggestion, pointed out that 2,045,000 tons of meat were consumed in Britain in 1927, of which \$25,000,000 were imported, chiefly beef of a quality almost equal to the best home-imported beef. In order to secure imported meat in a satisfactory condition, however, it should be available in Britain within 21 days after being shipped.

If chilled meat had to go into cold storage for three weeks on arrival, he said, its value would be considerably reduced as it would have to be frozen. The result would be that the importation of chilled meat would cease and nearly half the people of Great Britain would have to consume frozen meat of an inferior quality and pay a higher price for it than they did at present.

CLASH BETWEEN JAP TROOPS AND NATIONALISTS

Shanghai.—The Japanese 28th brigade under General Sotomura, bore the brunt of fighting between the Japanese and Nationalists forces.

General Sotomura's brigade came into contact with a force of southerners at Kien, about 15 miles east of Tsinan, and disarmed many of them after stubborn resistance.

When Sotomura's forces were returning to Tsinan they encountered a powerful force under General Chen Tiao Yuan. Fighting was last reported still in progress with the result unknown.

Chen Tiao Yuan was formerly governor of the province of Anhwei and commanded the three nationalist armies which succeeded in cutting the Shantung railway April 30 at Ninghsu.

The Japanese were continuing to try their attempts to disarm the nationalists as rapidly as they came in contact with them in the entire Tsinan area. The Mikado's forces had occupied the bridge across the Yellow River at Tsinan and other strategic points.

With the exception of the two encounters with Sotomura's forces most of the fighting was of a minor nature.

Would Have U.S. Mediate

Suggestion Made That Action Be Taken To Prevent War Between Japan and China

Geneva.—The peace purposes of the League of Nations will be served if Washington should wave a magic wand and prevent war between Japan and China, said a league authority discussing the possibilities of friendly mediation either by the United States Government or by the league.

Geneva circles appear confident that some soothing influence will be exercised to prevent the Chinese-Japanese conflict from growing worse. The league is ready to act if asked.

British Boys Study Agriculture

The above shows a splendid group of British Public and Secondary school students who have just arrived at the Macdonald Agricultural College. Recruited by the Department of Colonization and Development of the Canadian Pacific Railway, these young men will pursue a two years' course at the College. During the summer months they will work on farms where places have been selected for them. On completion of their studies they will engage in various branches of Canadian agricultural operations, by which they will be accustomed to Canadian methods.

The scheme under which these students were brought to Canada has now entered upon its fourth year of operation and the College authorities are thoroughly satisfied with the soundness of the plan. At the extreme left of the picture is Dr. H. Barton, Dean of the Faculty of Agriculture, Macdonald College, and at the extreme right is Mr. L. H. Hamilton, Instructor in Agriculture, who is especially charged with the supervision of the students under this particular scheme.

PROMINENT FINANCIER

Alfred Loewenstein, financier, now in Canada, who, representing one-third of the ordinary stock of the company, is reported to be seeking to obtain control of 'Brilliant' Traction Co., one of the world's largest public utilities.

Passports Required

For Short Vacation

Week-End Tickets To Europe Cost Britishers \$10.00 Extra

London.—The British Easter holiday crowd of 'trippers' to the Continent was thrown into consternation by being required to pay \$10 extra for their annual spring outing abroad—for the first time since the war passports were required.

Since 1919 a special facility had been in force under which persons were allowed to buy week-end tickets to certain French and Belgian ports, available from Friday to Tuesday, which allowed the holders to travel without a passport. Henceforth passports will be required.

Persons who enquired at the French consulate-general in London, learned that the British authorities had never consented to grant a reciprocal advantage to French and Belgian nationals, and the French Government now intended to make the abuse of this facility by one individual an occasion for withdrawing it altogether.

Says Alberta Bill

Is Given Support

Hon. C. A. Dunning Has Every Hope That It Will Pass

Edmonton.—Hon. Charles Dunning, Federal Minister of Railways, telegraphed Premier Brownlee in reply to the latter's request for co-operation in getting the Northern Railway extension through the house. He has every hope of the bill passing. The Government has done everything possible, he says, to facilitate it and extra time has been given private bills after the House had unanimously agreed that Government business should take precedence. "Mr. Dunning adds that talking-out tactics on private bills have become very prevalent during the present session."

Arrives In Big Plans

Ottawa.—Captain Alfred Loewenstein, Belgian multi-millionaire, arrived at Linderberg Field here in his tri-motored monoplane, the largest machine Ottawa has ever seen. Captain Loewenstein and Mrs. Loewenstein were the guests of Premier Mackenzie King at dinner, at Laurier House. He declared emphatically that his visit to the capital was merely a social call.

New Money For Ireland

London Mint Is Striking Coins For Free State

Dublin, Ireland.—A few months hence the people of the Irish Free State will begin to handle new coins intended to displace British coins in local circulation. The contract for minting was given to the London Mint, which has submitted Dublin the first striking and now will proceed with production, beginning with silver coins.

The new coins will be of the same value as British coins up to half-crowns, and no higher denomination will be coined at present. Provision has been made for a proportion of silver higher than that in British coins, in order to counteract any possible suspicion of the new coinage. The sixpence and the threepence piece will be of nickel, the new three-pence piece being of the size of the British silver sixpence, but without any milling. Bronze coins also are being struck, but it will take a little longer to substitute these for the corresponding British coins.

Urge Acceptance Of

Canadian Currency

Washington Asked To Sanction Its Use In U.S. Centres

Ottawa.—The Journal in an editorial says:

"Due to a letter addressed by A. H. Jarvis, of Ottawa, to the United States consul-general here, steps have been taken by the State Department at Washington, which may result in the future acceptance of Canadian currency at all centres across the line."

"Festilation on this score on the part of Americans in many districts has long been a source of inconvenience and annoyance to Canadian visitors to the U.S. Although we are Uncle Sam's best customer and despite the fact that the American dollar is accepted without question over here, there are many places and business houses and hotels across the border where the Canadian dollar is not more regarded than if it were the paper of Soviet Russia."

British Bankers Worried

Over Flood Of American Capital Which Is Entering Canada

London, Ont.—Grave fears are entertained by British bankers concerning the flood of American money which is entering Canada, according to Major Hugh C. Cronyn, London financier, who has just returned from a trip to England and the Riviera.

"It is impossible for us to secure money in England for anything like the rates at which we can secure it here," said Major Cronyn. "This is due largely to the interest of the U.S. in Canadian securities. The result is that British capital is naturally prevented from coming in to any great extent and the fear is felt in Britain that the new alignment of money power in Canada will have a bearing on the future relations of the Empire. I heard this referred to in England as a menace."

SASKATCHEWAN OLD AGE PENSION PLAN OPERATIVE

Ottawa.—The senate rejected the House of Commons bill amending section 98 of the criminal code by a vote of 32 to 22. This section made it unlawful for any person or association to advocate the employment of force to bring about changes in the governmental, industrial or economic conditions of the country, and gives certain powers to public officers to deal with violations of the act.

The agreement was signed on behalf of the province by Hon. C. M. Hamilton, Provincial Minister of Agriculture, under whose jurisdiction the pensions scheme will be operated by the Child Protection Bureau.

The signing by Mr. Heenan was witnessed by Premier King and a number of his colleagues from Saskatchewan. British Columbia has been paying old age pensions since last September and had disbursed about \$30,000 to the end of March. The Federal Government having re-imbursement the province for half this amount.

Saskatchewan will be the second province to actually begin old age pension payments.

Manitoba has passed the necessary legislation to take advantage of the Dominion Act, and it is more than likely that payments will begin there some time during the summer.

It is expected that an agreement with the Yukon will be made very soon.

JAPANESE FORCES IN CONTROL OF CITY OF TSINAN

Shanghai.—Japanese soldiers had cleared the last Nationalist forces from Tsinan, capital of Shantung province, and were in complete control of the city for the capture of which the Southerners had expended the entire force of their drive.

Reports of casualties involved in the expulsion of the Southerners from the city are indefinite, but loss of life is believed to be heavy for both Japanese and Chinese with the probability that many Tsinan civilians will be numbered among the dead.

Three field batteries which the Japanese had placed in the foreign settlement, one near the United States consulate, started to shell the city with shrapnel early in the day. Most of the population of 400,000 were caught unawares and a heavy slaughter is believed to have resulted.

In the course of the fighting the Japanese blew up the southern and western corners of the city wall and what southerners were left in the city departed in a rout, fleeing northward after crossing the Yellow River.

Resistance by the Nationalists in the main amounted to no more than sniping, although some costly small bands put up desperate fights to avoid dispersing and expulsion from the city by the Japanese.

According to Nationalist reports to this city, the Japanese now have complete control not only of Tsinan but of the entire Shantung railway, and the south end of the bridge across the Yellow River, and the city of Kotien, located 15 miles east of Tsinan.

To Speed Mail Delivery

Canard Steamship Line May Use

Airplanes For This Purpose

Montreal.—To further speed up delivery of mail from the British Isles for Canada, it is understood that the Canard Line in Liverpool have been considering a scheme whereby their ships to the St. Lawrence will each carry an aeroplane to be released when the Gulf of St. Lawrence is reached, the plane to take important mail either to Rimouski or to Quebec.

Officials here state they know nothing definite of the scheme yet, but say that it is quite feasible, as it is occasionally being carried out by ships on the New York service.

At present there is complete air mail chain from Rimouski to Toronto, operated by the postal department.

Wins In World Race

Jap Beats Competitor Who Was Held

Up By Storm

Tokio.—Toshiro Araki, taking the Eastern route, won the Globe encircling race with his fellow countryman, Ryuski Matsui, by his trip in 35 days, 16 hours and 28 minutes. The Western bound competitor, who is now on a liner crossing the Pacific ocean, missed his chance of winning the novel race when the steamer carrying him from England to New York was delayed by fog and storms.

A prize of \$1,500 will be awarded Araki, while Matsui gets \$500.

Amend Criminal Code

Ottawa.—The senate rejected the House of Commons bill amending section 98 of the criminal code by a vote of 32 to 22. This section made it unlawful for any person or association to advocate the employment of force to bring about changes in the governmental, industrial or economic conditions of the country, and gives certain powers to public officers to deal with violations of the act.

Landslide In Colombia

Bogota, Colombia.—Ten persons were killed and many injured in a landslide at the Venado-Cabeza mines, according to information from Rio Suco. It is feared many more were buried alive and rescuers are endeavoring to reach the imprisoned men, the information said.

Start Flight To Tokio

Le Bourget, France.—Captain Pelletier D'Orsay, Captain Gonin and Mechanic Carl left aboard a commercial airplane for Bucharest, en route to Tokio. They will make many stops on the way, including Asia Minor, Indo-China, China and Japan.

German As Official Language

Cape Town, South Africa.—The Southwest assembly, by a vote of 9 to 8, passed a motion to amend the Southwest African constitution to make German one of the official languages.

Not an inch have they gained on '72'

NEW performance values came into existence when the first Chrysler was created four years ago. The industry since has gone over en masse to the effort to pattern after them. But the remarkable thing is that Chrysler "72" is just as much alone today, as when it was the one and only exponent of its type. Alone in a theoretical sense only? Emphatically no. Alone in an actual sense—the performance sense which singles it out and sets it apart in competition of the street and road and hill as much as its brilliant beauty sets it apart in the eye of

the onlooker. These things could not be said if they were not true—and especially if the truth were not quickly provable. Chrysler "72" actually begs for tests and comparisons—it is eager to be checked not only in one, but on all phases of performance, with its most ambitious emulators. It has not yielded a fraction of an inch of its leadership of four years ago—but has actually widened the gap and lengthened the distance. Chrysler "72" is indeed illustrious because it is beyond doubt the one great engineering, performance and beauty value in the market today.
